THE HOUSE OF AÏA

As sunrise hails the day over Caribbean waters...

... sunset greets the night over virgin jungle canopies.

“By discovering nature, you discover yourself”
—Maxime Lagace

The House of AïA

AïA is a voice deep inside us that represents our connection to nature and a more authentic way of life. To find this voice we created a tropical sanctuary on a wild beach, cocooned between an undisturbed jungle and the Caribbean Sea... amidst a cascade of blue, green, and white.

Where Progressive Wellness Lives

We built this house with a simple philosophy in mind. You don't have to sacrifice good things to have a healthy life in adherence to progressive, holistic principles. You can eat delicious food, have a great drink, dance until your heart is full, and savor life completely.

Grow the Heart and the Spirit Follows

A place for friends to gather and deepen their bonds of friendship. For couples to harness their romantic tendencies and savor the moment in laughter, love, and playful serenity.

Tropical waters meet the shore while 4 enormous pools tempt you with water bars and verdant decor.

The Architects of Life

Our in-house leaders of personal growth have built a program based on an array of ancient rituals and practices to explore deeper meaning and the mysteries of life... with Mind and Body guides joining us from around the world...

Yoga, Sound Healing, Meditation, Ceremonies, Tai Chi, Sightless Discovery, Prehispanic Dances, Drumming, Talks, and much, much more.

“It is through inner exploration, questioning preconceptions, challenging established paradigms, and being brave enough to walk alone that we have the ability to change the world.”

—Alexander Ferri, Creator of The House of AiA

Rituals of Sound

For millennia communities have joined together around ancient beats first heard on the plains of Africa and in the valleys of Mesopotamia. Feeling music in its raw form transposes us, transports us... it sets us free.

Our in house program provides the latest in experimental music rituals and live instruments overlaid with deep fusion electronic sounds.

∞ Rites of Passage

A place perfectly suited for Rites of Passage, Rites of Love, Rites of Devotion – the only ones of their kind in the Riviera Maya – they take as their backdrop the most stunning private bays and shores, a stone temple, magical cenotes...

The Collective

The sanctity of the tribe, the joy of family, a place where all can join and be welcomed... with a supervised environment that draws on avant-garde thinking, giving children lots to do and learn... and so you can get away...

All child guides at Palmaia are fully trained Educators and operate under a Waldorf-inspired Teacher Training System.

Awen, The Children's Kingdom

An indoor playpen full of intelligent games where your little ones can just as easily take a comfortable nap or share time with others. It's also just steps away from the great outdoor kingdoms of trees, plants, hidden treasures, and anything the imagination can conjure.

Restaurants

Prepared with raw ingredients from the bounty of our greenhouse, to the catch of local fisheries, and produce of carefully selected provenance.

To apply the sacred art of food preparation with divine craft and attention.

With full plant-based menus at every restaurant and the option to swap in non-vegan alternatives... and to be one with nature.

Dining in Impeccable Spaces

Four restaurants and a dedicated food truck (nestled between the mangroves) offer flavors that explore the world through International Cuisine the Mediterranean, the Pacific Rim, and of course Mexico's finest.

When design and culinary adventures collide to form an environment that is as enriching to be in—as it is memorable to dine in. Explore the hand-painted scenery that celebrates the fauna and wildlife of the Yucatan Peninsula...

Gaze at columns that bestow the ambiance with contemporary regality, lighting that dances like stars in the night, or windows that soar above the foliage with glistening views of the sea.

Only Suites

234 Suites with a range of dispositions. Comfortable, elegant, spacious, and oh... that view!

Going even further, rooms are designed with no animal products or by-products: feather-free bedding, non-animal-tested bathroom amenities, no leather, the works... (or lack thereof).

In seeking to adhere to the most ambitious sustainability standards
Palmaia aims to be energy carbon neutral by 2023.

Atlantis: Spa in the Jungle

The origins of physical and emotional states of being are tied to the subtleties of one's body, which is composed of 9 energy centers that move and give fluidity to one's vitality.

At Atlantis we seek inner harmony by working on these energy centers to facilitate being in the eternal present. A place where healing absorbs the benefits of mother nature, sheltered within private treatment rooms, nestled among the trees and fresh water cenotes...
